## Day 0

---

At 5 pm (MDT) the day BEFORE the departure we meet at our office just outside of Moab Utah for a pre-trip meeting. Here you will learn what to expect and prepare for, receive your dry bags, sign Assumption of Risk forms and get a chance to ask any last minute questions.

If you cannot make the meeting, please let us know beforehand so that we can drop off your dry bags and any last minute instructions at your hotel.

## Day 1

---

The expedition begins at 8:30 AM at the Sheri Griffith Expeditions office. We then drive northeast along the Colorado River to our launch site at Dewey Bridge. Historic Dewey Bridge was built in 1916. It was Utah's longest suspension bridge and, at the time of its construction, was the 2nd largest suspension bridge west of the Mississippi. Sadly, in the summer of 2008 the bridge burned down due to careless campers in the area. There has been talk recently, though, of rebuilding the bridge.

Once we are at the launch site we will talk about river safety and basic kayak instructions, fit everyone for life jackets, and then push off from shore. Some of the crew prepares dinner, followed by a marshmallow roast over the campfire.

The **Fisher Towers Section of the Colorado River** has something to do for everyone in your family. For the younger ones, the gigantic sandy beaches are a very large playground complete with a personal sandbox. Parents and grandparents will enjoy both of the above and some private time while the guides entertain the kids with a variety of fun games. This vacation includes nature games, stories at night, kid friendly meals, marshmallows for roasting and a zillion stars for night gazing. One of the guides is designated the “**Kid Guide**” offering games, fun-to-learn outdoor skills, nature walks, water fights and sandcastle building. Parents can join in, or enjoy a little private time themselves. Fall asleep covered by a blanket of stars.

**Potential Hiking Opportunities: Bull Canyon**

## Day 2

---

Wake to fresh brewed coffee, hot cocoa, and a hearty breakfast. Soon, we are back on the river for another fun day of rafting and playing in the water. Time is set aside for building sandcastles on the beach and playing along the riverbank. We'll spend the day rafting and playing in the water, trading inflatable kayaks between us along the way. At midday, a buffet lunch is served along the riverbank. We'll drift downstream until late afternoon, when we pull off to camp. Pull off the river late afternoon and return to Moab around 5-5:30 PM.

**Potential Hiking Opportunities: Onion Creek**

## River Specific Information

### Whitewater

---

This stretch of the Colorado River is very mild with several small rapids. It is very wide and slow for most of this trip which creates warm water for swimming or water fighting.

### Boats

---

All of our equipment is top quality, state of the art and carefully maintained and serviced. Our family trips on the Colorado River are run with Oarboats and Paddleboats with requests. **Oarboats:** These are inflatable rafts (approx. 17 - 18 feet in length) with guides that maneuver them with a set of oars secured to a frame in the middle of the raft. **Paddleboats:** These are inflatable rafts (approx. 15 - 16 feet in length) manned by guests and their paddles. The guide gives instruction and navigates from the back of the boat. We also bring inflatable kayaks.

## Mosquito Warning

One certain fact of life on or near the River: Mosquitoes. The Colorado River has very few mosquitoes, but some stops may require that clients be prepared with bug spray, long sleeves, pants and possibly even a netted hat.

## *Packing List*

\*Available in our Travelers Store or by phone (800) 332-2439

\*\*\*We provide wetsuits when conditions require them

### What to pack:

To maximize the versatility of your travel wardrobe, we recommend packing lightweight clothing that can be worn in layers and one warm sweater or fleece jacket. Casual clothing that is comfortable and practical is appropriate for travel in the American Southwest. All hotels and restaurants are accustomed to informally dressed travelers, and in camp, dress is entirely casual.

It is especially important that you pack clothing that you do not mind getting wet. Synthetic fabrics have the advantage of being quick to dry because they don't retain water. Pile and fleece made of polyester or nylon work well as insulation. Cotton sweatshirts and jeans are not recommended as river wear as they are usually made of heavier fabric and take a long time to dry when wet.

If you wear prescription glasses or contact lenses, we recommend that you bring an extra pair. A strap for your glasses is essential. If you wear contact lenses, wraparound sunglasses are recommended, as are goggles during the rapids.

### **Handy Items**

Ziploc and trash bags are very useful for separating personal items in your dry bag such as medications, shampoo, soap, wet items, and dirty laundry. Wet wipes are great for washing your face, wiping your hands, and cleaning sand or dirt off of personal belongings. Pack a few clothespins and rope to dry clothes while on the river. Remember, on the river it is better to have it and not need it than to need it and not have it! All of these items *can* be invaluable and do not take up much space or add much weight to your luggage.

Carabineers are very handy in the outdoors as well as back home. Their oval shape and simple gate mechanism allow you to easily clip your water bottle, camera, hat ~ just about anything ~ nearby.

## **Photography**

---

Generally, when travelling, you'll want to bring all the film, camera batteries and other equipment you will need, as supplies may be intermittent. If you plan to travel with digital photographic and/or video equipment, make certain to pack the specific charging apparatus for each piece of equipment. We also suggest that you take into account the amount of data storage of each unit when determining the amount (if any) of additional memory discs to pack.

Bring a protective sports pouch to protect it from water. Participants will be able to store cameras in a shared "dry box." If you are bringing a variety of lenses, please have a waterproof container of your own. Keep in mind we cannot take responsibility for the safety of your personal property. An old river adage is "don't bring it on a river unless you can afford to lose it." Waterproof/disposable cameras are a great idea.

Sheri Griffith Expeditions provides a camera to the guides to photograph the trip. A CD can be purchased at the end of the trip for \$40. If you do not want to risk your camera you are more than welcome to take photos with ours.

## **River Camping**

---

The private camps in which you'll stay are mobile-tented river camps. They are set up to host you and your fellow travellers exclusively. After you depart, the entire camp is broken down and the campsite returns to untenanted wilderness again. Many aficionados of the true camping experience vastly prefer mobile camping, which is truer to the traditional, romantic camping atmosphere. You will not only be very comfortable in camp, you will also enjoy absolute privacy in your own pristine corner of the wild. Your guides, camp staff and travelling companions are likely to be the only other people you see.

## **Camping Equipment**

---

We provide top quality tents that sleep two or three persons comfortably. The tents used on the rafting programs are large enough to stand-up in (10' x 10' x 6'). We also provide comfortable sleeping bags and pads. To keep tents cool and airy there are two "doors" and a mesh, open top with a nylon rain fly. Sleeping bags are cozy and professionally laundered prior to each trip.

## **Food and Drink**

---

Riverside meals, prepared and served by camp staff trained in outdoor cuisine, are delicious and varied. Meals are served buffet style. You may bring your own beer, wine or hard liquor and we will be happy to store it and keep it chilled. Please avoid bringing glass. Bring beer in aluminium cans and transfer hard liquor into plastic containers.

**Please note:** Please remember we are in remote areas, usually in a mixed group, and far from medical assistance. We trust our guests will not endanger themselves, offend others, or evoke a guides' intervention by over drinking.

If you have a **special dietary requirement**, please advise Sheri Griffith Expeditions of your needs at least six weeks prior to departure. Every effort will be made to comply with your request.

## **Bathing and Toilets Facilities**

---

In camp, there are separate shared bathroom facilities for men and women. Due to environmental impact issues, bathing facilities are limited to areas in, or directly adjacent to the river. If you choose to bring your own soap/shampoo, we suggest they be biodegradable products.

Sanitary facilities throughout the American West need to be in compliance with the strict standards set by the land management agencies and local, state, and federal guidelines. We provide top of the line portable toilets that offer privacy and are designed to be stable and comfortable. The most widely used system is a sealed container with a regular toilet seat attached. Hand washing stations will always be located near toilet and dining areas and all guests are encouraged to use them regularly.

## **Electrical Power**

---

There is no electrical power in the pitched camps along the rivers. It is suggested that you carry a supply of additional batteries for your camera and any battery-operated appliances you are taking along. On a trip of this nature, items such as curling irons and hair dryers are NOT recommended. Mechanical or electronic devices that are noisy and which may disturb other guests "wilderness experience" are discouraged.

## **Entertainment**

---

Your campsite will also include a library of books and information about the river and surrounding area as well as a variety of games and activities such as horseshoes, bocce and volleyball. Singing and telling stories around the campfire are nightly occurrences.

## **Communications**

---

You will be visiting some of the most remote areas of the United States, you should be aware that radio contact is not often possible while travelling in river canyons. Additionally, cellular phones do not operate in river canyons.

**SAFETY, ASSUMPTION OF RISK AND, INSURANCE:** We maintain an excellent safety record, since 1971. However, all outdoor experiences involve risk and we all must recognize that accidents or illnesses may occur. We cannot guarantee your safety. We place final responsibility for your safety firmly on your shoulders where it belongs. You have to pay attention to what you are doing. Mother Nature controls the water level, the weather and the elements, so there is a risk involved in rafting and camping. Before your trip departs, you will be asked to sign an Assumption of Risk and Release Form. If you have questions regarding this document or would like to see one ahead of time, please feel free to request it. We assume no responsibility for injury to trip members, their personal belongings or, for time and expense incurred. **We strongly recommend Travel Insurance, which covers vacation losses and accidents and provides a refund if you have to cancel your trip.**

We make every effort to follow through on our plans. However, we reserve the right to make changes in the itinerary or possibly cancel a trip if necessary including but not limited to weather conditions, water fluctuations, insufficient reservations, changes in international relations, or other factors beyond our control. If cancellation is necessary, your money will be refunded. Our financial liability shall be limited to the amount actually paid and shall not be extended to cover any other costs incurred by the trip member.

## HEALTH ISSUES

If you are of an adventurous spirit and in reasonably good health, you should have no problem enjoying any of our trips. It's not necessary to be an athlete to participate in a river expedition. However, it is several hours to the nearest medical center. If you take medication you should bring a good supply and inform your guide of all medication that you are taking. When you meet your guide, you should discretely explain any medical conditions you may have or be concerned about including allergies to bee stings, etc. Each guide carries a first aid kit and will need to know if specific medicines should be stored. It's also helpful to know about other health issues when planning activities for the day. Pregnant women and anyone with heart trouble should have their physician's approval before taking a river trip.

## GRATUITIES

Guests often ask whether gratuities are appropriate, and in what amount. If you feel your guides have provided a very special trip for you, a gratuity may be left with the trip leader and will be shared among the crew. Entirely discretionary, anything between 15% and 20% of the trip cost is a general tipping guideline. If you plan to tip, remember to bring a personal check or cash—ATM's are hard to find in the backcountry! PLEASE, do not make out checks to Sheri Griffith Expeditions. If you are writing check please make it out to the Trip Leader. NOTE: we cannot take credit card gratuities.
